

PEDRALI®

ARKI-TABLE ARKS180x79REG

DESIGN:
PEDRALI R&D

With its practical, height-adjustable top, the Arki-Table Adjustable Desk contributes to the creation of a functional and dynamic office space. Single workstation with steel trestle legs, ultra-thin solid laminate top supported by an extruded aluminium frame.

Two electric actuators, connected to a control unit and activated by a controller placed under the top, move as one, allowing the user to choose the ideal height of the top, from 740 to 1140 mm.

The cable access, placed between the top and the panel, allows to anchor the sound absorbing panel upholstered in fabric which divides one desk from another.
