SEASON

Unexpected details

Collection designed by Piero Lissoni, 2011

Designed by Piero Lissoni, the Season collection represents the balance between simplicity and a carefully thought design.

We know that clear and defined forms penetrate the mind faster and longer. This is where we find the real reason for the existence of contemporary design. The modular parts make the work of the interior designer easier. This is so because there is

nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration. Each and every element that makes up the Season family has been born from surprising and unexpected details.

"The modular parts make the work of the interior designer easier. This is so because there is nothing like having total freedom when it comes to creating a space. There is nothing like playing with the silhouette of different objects, like creating relaxed and flexible environments in which to promote collaboration."

Season *Pouf*

2014 — The successful collection signed by Lissoni grows with poufs of new dimensions. The family members keep the option of including its intelligent system of hidden casters, very suitable for office and educational spaces where agility and dynamism prevail. As a true game of geometric shapes, this extension of the collection covers all the needs that may arise within the intermediate spaces and collaborative areas. In short, Season has become a particularly adaptable, flexible, friendly and attractive design, thanks to its sensual shapes.
