

Julian

design Javier Mariscal / 2005

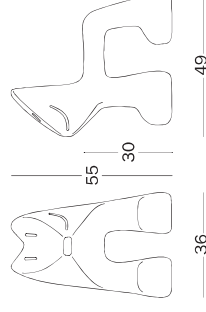

Julian is an appealing chair made to look like a cat: the cat's paws become in fact the legs of the chair while the face with whiskers is the back. A colourful, comfortable and fun chair made in polyethylene and therefore suitable also for the outside where children can have fun playing as well as sit down.

material /

rotational-moulded polyethylene. Suitable for outdoor use.

“ Julian has seven lives: he's a cat, a chair, a toy... you invent the other four! “

colours /
